SUMMARY

I am a Front-End Web Developer (React JS) skilled in building scalable, visually appealing solutions. Dedicated, hardworking, and quick to adapt to new tools and technologies in a fast-evolving industry, with a passion for crafting seamless user experiences

SKILLS

- **Front-End Technologies**: HTML, CSS, JavaScript, TypeScript, React JS, Next JS, Redux, Redux-Toolkit.
- **UI Libraries & Framework**: MUI, Tailwind CSS, SASS, Bootstrap, Chakra UI, Ant Design.
- **Version Control**: Git, GitHub.
- **Tools & Platforms**: Visual Studio Code, Jira.
- **Deployment**: Netlify, Vercel.

WORK EXPERIENCE

Front-End Web Developer (React JS, Next JS), Mero Vision, Buddhanagar   May 2024 - Present

- Led development of scalable front-end web applications using React JS and Next JS, ensuring seamless user experiences and optimal performance for diverse client needs.
- Implemented advanced SEO strategies and server-side rendering techniques to enhance web application visibility and search engine rankings.
- Designed reusable component libraries and modular front-end architectures to streamline development processes and maintain consistent design systems across projects.

Front-End Web Developer (React JS), Scodus Innovations, Dillibazar   Sep 2021 - Present

- Designed and developed advanced web applications using React JS and server-side rendered applications with Next JS, delivering high-performance and SEO-friendly solutions for critical client projects.
- Led the front-end architecture and development of a restaurant POS platform, collaborating with UI/UX designers and backend teams to create intuitive and user-centric interfaces.
- Enhanced state management efficiency by integrating Redux Toolkit, ensuring seamless data flow and maintainability across complex React.js and Next.js applications.

PROJECTS

- **Restaurant POS Platform with Real-Time System Management Dashboard (Link):** Developed a comprehensive POS system for restaurant management, utilizing, React and Redux-toolkit for smooth, modular design. Integrated a real-time dashboard to monitor active orders, inventory levels, and sales data in real-time.
- **Education Consultancy Website with System Dashboard [RB Abroads Shikshya] (Link):** Developed a role-based dashboard for RB Abroads, an education consultancy platform. Enabled secure role-based access for administrators, agents, and students, allowing each user type customized access to resources like application tracking, consultation bookings, and progress updates.
- **NBNS Global Website with CMS Dashboard (Link)**: Developed a comprehensive website for NBNS (Nepalese Descendants Citizens Association) with CMS dashboard using React JS, Next JS, and Redux, allowing real-time content management. Implemented role-based access control, real-time data sync, and optimized API integration.

EDUCATION

- **Bachelor of Software Engineering, NCIT, Lalitpur, Nepal**
- **+2, HSEB, White House College, Lalitpur, Nepal**
- **10th Standard, SLC, Angels High School, Nepalgunj, Nepal**

ADDITIONAL INFORMATION

- **Languages:** Nepali, Hindi, English.
- **Address:** Balkumari, Lalitpur
- **Contact No. :** 9845538830
